All the unnecessary is removed in the Jelly pendant in favour of the simple shape and inviting expression the glass provides. Jelly consists of two layers of glass with the inner shade in white opal glass and the outer shade in clear glass, which gives the light a soft and warm glow. A small detail is the gracious brass top, which adds an exclusive expression to the lamp. Jelly is perfect above the dining table or to light up any corner that needs a little extra light.

The glass in this lamp is mouth-blown and has been individually hand crafted. Due to this unique process, air bubbles may appear in the glass and the thickness of the glass can also vary. This gives the glass its character and vivid appearance.
