• Industrial style • Tilting and turning shade

With its raw and industrial design, the Adrian series creates a contrast to the bright and feminine Nordic interior style. The interaction between the rough surface and the integrated screws reinforces the industrial expression. In contrast to the rough design, the screen creates cosy lighting with downward light and simultaneously spreads the light out into the room through the screws on the side, contributing to a whole new lighting experience.

The functional Adrian pendant can be directed and can provide lighting exactly where you want. This allows for a multitude of applications, where the pendant can be used above the dining table, in the kitchen or as a reading lamp by the bed.
