DESCRIPTION

Alexandre Dubreuil designed for Lyon Béton a coffee table made of a concrete platform raised by a black lacquered metal base. The perforated metal plate rotates 360° to suit all your needs: drink with friends, TV diner, tablet or computer stand... It will soon become indispensable to you.

DESIGNER

Alexandre Dubreuil's global experience, from the design of industrial objects to interior architecture for permanent spaces or events, leads him to reconsider the interactions between people, spaces and objects.
